OCEAN BEACH MARINA

LAVALLETTE WINTERIZATION 2026

PROCEDURES

INBOARD/OUTBOARD

1. Ensure proper operating condition and flushing cooling system.
2. Run the engine sufficiently, bring up to normal operating temperature, allowing a portable gas tank filled with a mixture to circulate through the fuel system.
3. Drain water from engine block and fill internal water passage with anti-freeze.
4. Spray lubricant on all external parts to prevent against corrosion.
5. If the engine is a closed cool water system, the anti-freeze will be inspected for freeze protection (minimum of -10°F).

OUTDRIVE

1. Remove unit.
2. Inspect universal bearing, universal joints, bellows, shift shaft bushing etc.
3. Drain and re-fill gear lube. Replace drain screw and mounting gaskets.
4. Grease shaft and all zerk fittings.
5. Reinstall unit.

Gear Oil Reservoir may need to be monitored/refilled after first ride in Spring.

OUTBOARD

1. Run engine to ensure proper operating condition and flush cooling system.
2. Run the engine sufficiently, bring up to normal operating temperature, allowing a portable gas tank filled with a mixture to circulate through the fuel system.
3. Grease all zerk fittings.
4. Drain and re-fill gear lube. Reinstall drain screws and replace gaskets.
5. Spray lubricant on all external parts to prevent against corrosion.
6. Remove, grease, and reinstall prop.

WATER SYSTEMS

1. Drain water system.
2. Run anti-freeze through the system.
3. Inspect system for visible leaks.

Hot water heater may require commissioning to prevent damage in Spring.

Please note: If you are storing your vessel with Ocean Beach Marina Lavallette, whether home or on our premise, storage MUST be paid for prior to scheduling. A card MUST be on file in order to schedule any winterization services. Once the work is completed, you will have a week (7 days) to use an alternative form of payment. If alternative payment is not received, the card on file will be charged. There is a 3% fee on all credit card transactions.

Recommended service to do to EVERY BOAT:

Winterize engine

Remove outdrive – Change gear oil, grease prop, Inspect **(Stern drive and outboard only)**

Replace primary water separator fuel filter

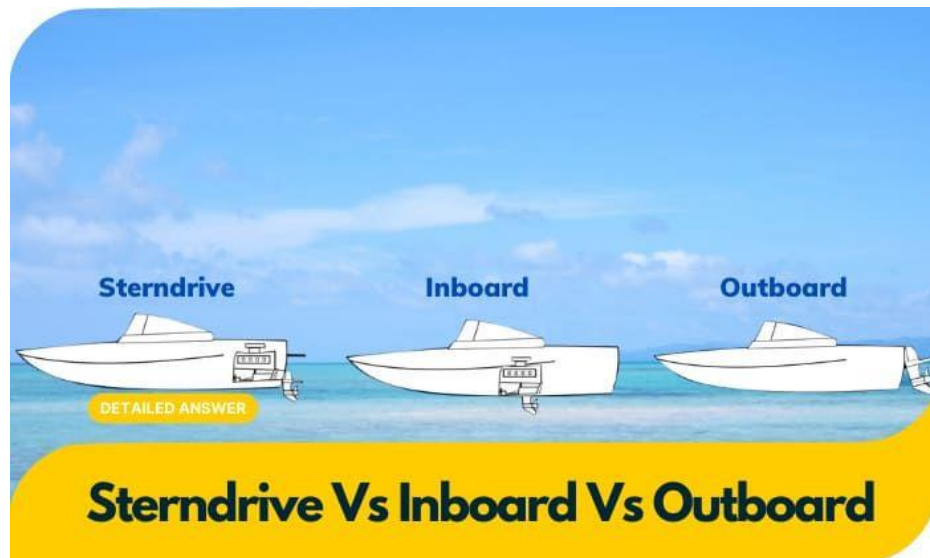

Change 4 cycle oil + filter **(Generators as well as all engines)**

Replace Water pump (recommended every 3 years)

Disconnect batteries

Shrink wrap boat

What kind of engine do I have? (Sterndrive/IOs, Outboard, Inboard)

Does your boat have a sink on board? If yes, the below services should ALSO be completed:

Winterize head system

Winterize freshwater systems

Winterize ice maker

Winterize air conditioner **(If applicable for live aboard models)**

Winterize live wells, washdowns, and fish boxes

IF your boat has a generator, it is recommended to have the oil changed on the unit and winterize it once completed
